

ECE-914: STEM in the ECE Classroom

Independent Study Online Course Syllabus

Instructor: Vanessa Bailey, MA**Phone:** (559) 429-6362**Email:** vanessa.bailey@fresno.edu**Number of Graduate Semester Units:** 3 units**Target Audience:** Preschool, TK, K, 1st**Course Access:** <https://connect.fresno.edu>

Course Description

This course is designed to build educators' confidence and competence in incorporating STEM (science, technology, engineering and math) concepts and bringing them alive in the early childhood education classroom. STEM concepts advance children's cognitive and creative thinking skills and introduce them to a variety of topics and concepts that support their learning and growth in all other academic areas. Take away from the course hands-on activity ideas that can be implemented in the ECE classroom immediately! Learn how to use STEM activities to support other areas of learning and evaluate developmental progress through observance of participation in STEM activities.

Note: Required book must be acquired separately.

Required Texts and Course Materials

Book: Lange, A., et al. (2019) *Teaching STEM in the Preschool Classroom*. Teacher's College Press. ISBN-13: 978-0807761366. <https://www.amazon.com/Teaching-STEM-Preschool-Classroom-5-Year-Olds/dp/0807761362>

Canvas: This course will be delivered totally online. Canvas is a web-based learning management system (LMS) that provides students access to online resources, documents, videos, assignments, quizzes, forums, etc. Canvas is easy to learn and has a user-friendly interface.

Online Resources: Relevant online resources that support the course content and encourage further investigation will be available throughout the course assignments. Active hyperlinks are utilized throughout the course and will link to the appropriate information when clicked. These include videos, podcasts, worksheets, online activities, journal articles and other resources.

Course Dates

Self-paced; students may enroll at any time and take up to one year, from the date of registration, to complete assignments. Students may complete assignments in no less than three weeks for a 3-unit course (one week per unit).

National Standards Addressed in This Course

National Science Teaching Association (NSTA)

(<https://www.nsta.org/nstas-official-positions/early-childhood-science-education>)

1. Children have the capacity to engage in scientific practices and develop understanding at a conceptual level.
2. Adults play a central and important role in helping young children learn science.
3. Young children need multiple and varied opportunities to engage in science exploration and discovery (NAEYC 2013).
4. Young children develop science skills and knowledge in both formal and informal settings.
5. Young children develop science skills and knowledge over time.
6. Young children develop science skills and learning by engaging in experiential learning.

National Council of Teachers of Mathematics (NCTM) (<https://www.nctm.org/Standards-and-Positions/Position-Statements/Mathematics-in-Early-Childhood-Learning/>)

1. Capitalize on the wonder and joy children naturally bring to their mathematical learning and their observations of the world.
2. Use curriculum and teaching practices that build and strengthen children's problem solving and reasoning.
3. Accept and appreciate that all children have rich and diverse cultural, linguistic, home, and community experiences on which to build mathematics learning.
4. Build partnerships and opportunities for collaboration with students, families, community leaders, and policymakers to address barriers to educational attainment.
5. Develop systems of reflective practice across affected parties for equitable access to early care and childhood mathematics learning opportunities.

Continuing Education Student Learning Outcomes (CE-SLO)

CE-SLO 1	Demonstrate proficient written communication by articulating a clear focus, synthesizing arguments, and utilizing standard formats in order to inform and persuade others, and present information applicable to targeted use.
CE-SLO 2	Demonstrate comprehension of content-specific knowledge and the ability to apply it in theoretical, personal, professional, or societal contexts.
CE-SLO 3	Reflect on their personal and professional growth and provide evidence of how such reflection is utilized to manage personal and professional improvement.
CE-SLO 4	Apply critical thinking competencies by generating probing questions, recognizing underlying assumptions, interpreting and evaluating relevant information, and applying their understandings to the professional setting.
CE-SLO 5	Reflect on values that inspire high standards of professional and ethical behavior as they pursue excellence in applying new learning to their chosen field.

CE-SLO 6	Identify information needed in order to fully understand a topic or task, organize that information, identify the best sources of information for a given enquiry, locate and critically evaluate sources, and accurately and effectively share that information.
----------	---

Course Student Learning Outcomes (C-SLO)

Student Learning Outcomes for This Course By the end of this course student will be able to:		National Standards Addressed*	CE-SLO Addressed**
C-SLO 1	Explain how incorporating STEM in the ECE environment contributes to long term positive academic outcomes for students.	NSTA 2	CE 1, 6
C-SLO 2	Give examples of teaching practices that build and strengthen childrens' STEM skills.	NCTM 2	CE 2, 4
C-SLO 3	List materials that are useful in promoting STEM learning across ECE classrooms.	NSTA 4	CE 4, 6
C-SLO 4	Design a learning experience that targets a STEM concept.	NSTA 3	CE 3, 5
C-SLO 5	Identify specific processes and learning skills that are developed through incorporation of STEM activities in the classroom.	NSTA 6, NSTM 5	CE 2, 4, 6
C-SLO 6	Reflect on personal comfort level incorporating STEM into the ECE classroom, and develop a plan for next steps.	NCTM 5	CE 1, 2, 6

* Please refer to the section on **National Standards Addressed in This Course**

Topics, Assignments, and Activities

Module Title	Module Assignments and Activities	Points Possible
Welcome Module	- Welcome Video - Course Syllabus - Introduce Yourself Forum	
Module 1 – STEM in Preschool	- Read Chapter 1 1.1 Assignment: Differentiation 1.2 Assignment: Understanding the Standards 1.3 Assignment: Why Teach Stem in ECE? 1.4 Forum: Evaluating Yourself Reflection	50 pts 50 pts 50 pts 10 pts
Module 2 – Teaching & Environmental Strategies	- Read Chapter 2 2.1 Assignment: Standards Comparison 2.2 Assignment: Choosing Materials 2.3 Forum: Next Steps	50 pts 50 pts 10 pts
Module 3 – Science	- Read Chapter 3 - Read <i>Serendipitous Science: NAEYC</i> - Research/Read Science Related article of choice 3.1 Assignment: Quiz	50 pts

Module Title	Module Assignments and Activities	Points Possible
	3.2 Assignment: Resources, Strategies, Content 3.3 Forum: Vision & Next Steps	50 pts 10 pts
Module 4 – Technology	- Read Chapter 4 - Read <i>Technology as Tools... NAEYC</i> 4.1 Assignment: Quiz 4.2 Assignment: Resources, Strategies, Content 4.3 Forum: Vision & Next Steps	50 pts 50 pts 10 pts
Module 5 – Engineering	- Read Chapter 5 - Read https://www.naeyc.org/resources/pubs/yc/sep2018/design-process-engineering-preschool 5.1 Assignment: Quiz 5.2 Assignment: Resources, Strategies, Content 5.3 Forum: Vision & Next Steps	50 pts 50 pts 10 pts
Module 6 – Math	- Read Chapter 6 - Read https://www.naeyc.org/resources/pubs/tyc/oct2014/making-math-meaningful 6.1 Assignment: Quiz 6.2 Assignment: Resources, Strategies, Content 6.3 Forum: Vision & Next Steps	50 pts 50 pts 10 pts
Course Wrap-up – Grading and Evaluation	- Final Reflection Forum - Course Evaluation - Course Completion Checklist - Grade Request / Transcript Request	
	TOTAL POINTS	710 points

Grading Policies, Rubrics, and Requirements for Assignments

Grading Policies

- Assignments will be graded per criteria presented in the course rubrics.
- A = 90-100% and B = 80-89%, (anything below 80% will not receive credit.)
- The discernment between an A or a B letter grade is at the discretion of the instructor based on the quality of work submitted (see course rubrics).
- Coursework falling below a B grade will be returned with further instructions.
- All assignments must be completed to receive a grade and are expected to reflect the quality that teacher-training institutions require of professional educators. If completed assignments do not meet this standard, students will be notified with further instructions from the instructor.

Grading Rubrics

Grade	Percent	Description	Rubric
A	90-100%	Excellent	Meets all course / assignment requirements with significant evidence of subject mastery and demonstration of excellent graduate level professional development scholarship.

B	80-89%	Very Good	Adequately meets criteria for all course/assignment requirements - demonstrates subject competency with very good graduate level professional development scholarship.
NC	Below 80%	Unacceptable	Does not meet the minimum criteria for all course/assignment requirements and demonstrated little, if any, evidence of acceptable graduate level professional development scholarship.

Writing Requirements

- **Superior:** Writing is clear, succinct, and reflects graduate level expectations. Clearly addresses all parts of the writing task. Maintains a consistent point of view and organizational structure. Includes relevant facts, details, and explanations.
- **Standard:** Writing is acceptable with very few mistakes in grammar and spelling. Addresses most parts of the writing task. Maintains a mostly consistent point of view and organizational structure. Includes mostly relevant facts, details, and explanations.
- **Sub-standard:** Writing contains noticeable mistakes in grammar and spelling. Does not address all parts of the writing task. Lacks a consistent point of view and organizational structure. May include marginally relevant facts, details, and explanations.

Lesson Plan Requirements

- **Superior:** Instructional goals and objectives clearly stated. Instructional strategies appropriate for learning outcome(s). Method for assessing student learning and evaluating instruction is clearly delineated and authentic. All materials necessary for student and teacher to complete lesson clearly listed.
- **Standard:** Instructional goals and objectives are stated but are not easy to understand. Some instructional strategies are appropriate for learning outcome(s). Method for assessing student learning and evaluating instruction is present. Most materials necessary for student and teacher to complete lesson are listed.
- **Sub-standard:** Instructional goals and objectives are not stated. Learners cannot tell what is expected of them. Instructional strategies are missing or strategies used are inappropriate. Method for assessing student learning and evaluating instruction is missing. Materials necessary for student and teacher to complete lesson are missing.

Instructor/Student Contact Information

Throughout the course participants will be communicating with the instructor and their classmates on a regular basis using asynchronous discussion forums. Students are provided with instructor contact information in the event they want to make email or phone contact. In addition, students are encouraged to email or phone the instructor at any time. Students will also receive feedback on the required assignments as they are submitted.

Forums

Participation is an important expectation of this course and all online courses. Online discussions promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. While students may not be engaging with the same students throughout this course, they will be expected to offer comments, questions, and replies to the discussion question whenever possible. The faculty role in the discussion forum is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Once documentation is on file, arrangements for reasonable accommodations can be made. For more information and for downloadable forms, please go to <https://www.fresno.edu/departments/disability-access-education>.

Plagiarism and Academic Honesty

All people participating in the educational process at Fresno Pacific University are expected to pursue honesty and integrity in all aspects of their academic work. Academic dishonesty, including plagiarism, will be handled per the procedures set forth in the Fresno Pacific University Catalogue and Handbook - <https://handbook.fresno.edu/graduate/academic-policies>

Technology Requirements

To successfully complete the course requirements, course participants will need Internet access, can send and receive email, know how to manage simple files in a word processing program, and have a basic understanding of the Internet. Please remember that the instructor is not able to offer technical support. If you need technical support, please contact your Internet Service Provider.

Getting Help with Canvas: If you need help with Canvas, please contact the FPU Help Desk by phone: (559) 453-3410 or email: helpdesk@fresno.edu. Help is available Mon-Fri 8:00 am to 7:00 pm.

Final Course Grade and Transcripts

When all work for the course has been completed, students will need to request their final grade by accessing the form at ce.fresno.edu/grade-request. Once the instructor receives the request and posts their final grade, students will receive an email communication from the University. Please allow at least two weeks for the final grade to be posted before you order your transcripts online.

University Policies and Procedures

Students are responsible for becoming familiar with the information presented in the Academic Catalog and for knowing and observing all policies and procedures related to their participation in the university community. A summary of university policies may be found on the university website at <https://www.fresno.edu/departments/registrars-office/academic-catalogs>.

Fresno Pacific University Student Learning Outcomes (FPU-SLO)

FPU-SLO 1	Oral Communication: Students will <i>exhibit</i> clear, engaging, and confident oral communication – in both individual and group settings – and will critically <i>evaluate</i> content and delivery components.
FPU-SLO 2	Written Communication: Students will <i>demonstrate</i> proficient written communication by <i>articulating</i> a clear focus, <i>synthesizing</i> arguments, and utilizing standard formats in order to <i>inform</i> and <i>persuade</i> others.
FPU-SLO 3	Content Knowledge: Students will <i>demonstrate</i> comprehension of content-specific knowledge and the ability to apply it in theoretical, personal, professional, or societal contexts.
FPU-SLO 4	Reflection: Students will <i>reflect</i> on their personal and professional growth and <i>provide evidence</i> of how such reflection is utilized to manage personal and vocational improvement.
FPU-SLO 5	Critical Thinking: Students will <i>apply</i> critical thinking competencies by <i>generating</i> probing questions, <i>recognizing</i> underlying assumptions, <i>interpreting</i> and <i>evaluating</i> relevant information, and <i>applying</i> their understandings to new situations.
FPU-SLO 6	Moral Reasoning: Students will <i>identify</i> and <i>apply</i> moral reasoning and ethical decision-making skills, and <i>articulate</i> the norms and principles underlying a Christian worldview.
FPU-SLO 7	Service: Students will <i>demonstrate</i> service and reconciliation as a way of leadership.
FPU-SLO 8	Cultural and Global Perspective: Students will <i>identify</i> personal, cultural, and global perspectives and will employ these perspectives to <i>evaluate</i> complex systems.
FPU-SLO 9	Quantitative Reasoning: Students will accurately <i>compute</i> calculations and symbolic operations and <i>explain</i> their use in a field of study.
FPU-SLO 10	Information Literacy: Students will <i>identify</i> information needed in order to fully understand a topic or task, <i>explain</i> how that information is organized, <i>identify</i> the best sources of information for a given enquiry, <i>locate</i> and critically <i>evaluate</i> sources, and accurately and effectively <i>share</i> that information.
