Course Description

Sports and physical activities have become a large and pervasive part of the everyday lives of most Americans. Historically, sports have been a significant cultural component of civilization and have come to assume an important role in the life of most schools.

This 3-unit course offers the administrator, teacher, coach, and participant the opportunity to learn about the impact sports and physical education has had on society and on the lives of individuals. By studying the history and culture of sport and physical education, one is in a better position to critically evaluate and affect changes that will enable these activities to be meaningful activities in the lives of individuals and in the social organization of communities.

The course addresses several of the Society of Health and Physical Educators (SHAPE) National Physical Education Standards as well as the National Standards for Sports Coaches. Additionally, the course incorporates the National Professional Teaching Standards as described by The National Board for Professional Teaching Standards (NBPTS)

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS)

(<http://www.nbpts.org/standards-five-core-propositions/>)

First published in 1989 and updated in 2016, [*What Teachers Should Know and Be Able to Do*](#) articulates the National Board's Five Core Propositions for teaching. The Five Core Propositions - comparable to medicine's Hippocratic Oath — set forth the profession's vision for accomplished teaching. Together, the propositions form the basis of all National Board Standards and the foundation for National Board Certification. Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

- Proposition 1: Teachers are committed to students and their learning
- Proposition 2: Teachers know the subject they teach and how to teach those subjects to students
- Proposition 3: Teachers are responsible for managing and monitoring student learning
- Proposition 4: Teachers think systematically about their practice and learn from experience
- Proposition 5: Teachers are members of learning communities

Society of Health and Physical Educators (SHAPE) (<http://www.shapeamerica.org/standards/pe/>)

Standard 4: The physically literate individual exhibits responsible personal and social behavior that respects self and others. The intent of this standard is to develop respect for individual similarities and differences among participants in physical activity. Similarities and differences include characteristics of physical development, cultural diversity, ethnicity, motor performance, skill level, disabilities, physical characteristics, gender, race, and socioeconomic status.

Standard 5: The physically literate individual recognizes the value of physical activity for health, enjoyment, challenge, self-expression and/or social interaction. This standard is designed to develop an awareness of the intrinsic values and benefits of participation in physical activity that provides personal meaning.

Society of Health and Physical Educators (SHAPE):

Online forums promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. Forum postings are open to be viewed by all students in the course, so do not post sensitive or personal information about your students. While students may not be engaging with the same students throughout this course, they will be expected to offer comments, questions, and replies to the forum questions whenever possible. The faculty role in the forums is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Once documentation is on file, arrangements for reasonable accommodations can be made. For more information and for downloadable forms, please go to <https://www.fresno.edu/departments/disability-access-education>.
