Course Description

Creativity is one of the most sought-after skills in the world. For thousands of years, it has been the primary means by which humanity has thrived. This course explores the creative process through artistic examples so you and your students can gain a greater understanding and become successful, creative individuals. Structured in a 24-video lecture series, you will learn how to appreciate the creative process through looking at some of the greatest artistic examples through history. This course will not only provide knowledge in appreciating art but it will inspire your own creativity so you can help your students learn to look at and appreciate great art and expand their own creative skills, too.

Course Structure

Think of this course as being structured like a museum experience. In a museum you have the choice of visiting whichever sections you like, viewing a variety of artwork of your choosing. The same is true of this course. You are responsible for selecting and watching at least 24 of these lectures. All 36 lectures are provided on Moodle, as well as their corresponding guidebook chapters.

Students are then required to complete the assignments listed in modules 1-6. Each of the modules are structured with the same headings and type of assignments. You will participate in one reflection forum per module where you will interact with other participants. In addition, you will complete one classroom application assignment per module, one creative development assignment per module, and one creative networking assignment per module.

Note: Course guidebook is included with the cost of the course.

Required Texts and Course Materials

Course Guidebook: Hirsh, S.L. (2011). How to Look at and Understand Great Art. The Teaching Company.

Course Dates

Self-paced; students may enroll at any time and take up to one year, from the date of registration, to complete assignments. Students may complete assignments in no less than three weeks for a 3-unit course (one week per unit).

National Standards Addressed in This Course

National Standards for Visual Art

(<http://www.maswcd.net/National%20Visual%20Arts%20Standards.pdf>)

Developed by the Consortium of National Arts Education Associations (under the guidance of the National Committee for Standards in the Arts), the National Standards for Arts Education (NSAE) is a document which outlines basic arts learning outcomes integral to the comprehensive K-12 education of every American student. The Consortium published the National Standards in 1994 through a grant administered by MENC, the National Association for Music Education.

Common Core State Standards (CCSS) (www.corestandards.org)

The Common Core State Standards provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy.

Throughout the course participants will be communicating with the instructor and their classmates on a regular basis using asynchronous posting forums. Students are provided with instructor contact information in the event they want to make email or phone contact. In addition, students are encouraged to email or phone the instructor at any time. Students will also receive feedback on the required assignments as they are submitted.

Forums

Participation is an important expectation of this course and all online courses. Online forums promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. Forum postings are open to be viewed by all students in the course, so do not post sensitive or personal information about your students. While students may not be engaging with the same students throughout this course, they will be expected to offer comments, questions, and replies to the forum questions whenever possible. The faculty role in the forums is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Once documentation is on file, arrangements for reasonable accommodations can be made. For more information and for downloadable forms, please go to <https://www.fresno.edu/departments/disability-access-education>.
