Course Description

America stands at a dramatic crossroads: Mega banks and corporations wield disturbing power; Huge income gap between the top 1% and the other 99% grows visibly wider; Astounding new technologies are changing American lives; Conflicts over U.S. military interventionism, and the environment and immigration dominate public debate. Sound like today's headlines? You might be surprised to know that these headlines were from newspapers over 100 years ago. These and other issues characterized the early 20th century and were the hallmarks of the transformative periods known as the Gilded Age (1865-1900) and the Progressive Era (1900-1920).

Welcome to one of the most colorful, tumultuous, raucous, and profoundly pivotal epochs in American history. Stretching from the end of the Civil War in 1865 to roughly 1920, this extraordinary time was not only an era of vast and sweeping change—it saw the birth of the United States as we and the world at large now know it. Before the Gilded Age and Progressive Era, America was a developing nation, with a largely agrarian economy; sharp divisions between North, South, and West; and virtually no role in global affairs. Yet by 1900, within an astonishing 35 years, the U.S. had emerged as the world's greatest industrial power.

Gilded Age and Progressive Era leads you on a sprawling journey through this uproarious epoch. In taking the measure of six dramatically innovative decades, you'll investigate the economic, political, and social upheavals that marked these years, as well as the details of daily life and the critical cultural thinking of the times. In the process, you'll meet robber barons, industrialists, socialites, crusading reformers, inventors, conservationists, women's suffragists, civil rights activists, and passionate progressives, who together forged a new United States. This class provides a stunning and illuminating portrait of a nation-changing era.

National Standards Addressed in This Course

National Board for Professional Teaching Standards (NBPTS)

(<http://www.nbpts.org/standards-five-core-propositions/>)

First published in 1989 and updated in 2016, [What Teachers Should Know and Be Able to Do](#) articulates the National Board's Five Core Propositions for teaching. The Five Core Propositions - comparable to medicine's Hippocratic Oath — set forth the profession's vision for accomplished teaching. Together, the propositions form the basis of all National Board Standards and the foundation for National Board Certification. Course assignments have been designed so students can demonstrate excellence against these professional teaching standards whenever possible.

- Proposition 1: Teachers are committed to students and their learning
- Proposition 2: Teachers know the subject they teach and how to teach those subjects to students
- Proposition 3: Teachers are responsible for managing and monitoring student learning
- Proposition 4: Teachers think systematically about their practice and learn from experience
- Proposition 5: Teachers are members of learning communities

NBPTS Social Studies–History Standards Statements (SS-HS)

(<https://www.nbpts.org/wp-content/uploads/2017/07/EAYA-SSH.pdf>)

The National Board for Professional Teaching Standards (NBPTS) has organized the standards for accomplished teachers of social studies–history into the following eight standards. The standards have been ordered to facilitate understanding, not to assign priorities. They each describe an important facet of accomplished teaching; they often occur concurrently because of the seamless quality of accomplished practice. These standards serve as the basis for National Board Certification in social studies–history.

Knowing Students, Purpose, And Content

- Standard I: Knowing Students
- Standard II: Developing Social Understanding, Engagement, and Civic Identity

- Standard III: Content

Common Core State Standards (CCSS) (www.corestandards.org)

The Common Core State Standards provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy.

Throughout the course participants will be communicating with the instructor and their classmates on a regular basis using asynchronous discussion forums. Students are provided with instructor contact information in the event they want to make email or phone contact. In addition, students are encouraged to email or phone the instructor at any time. Students will also receive feedback on the required assignments as they are submitted.

Forums

Participation is an important expectation of this course and all online courses. Online discussions promote reflection and analysis while allowing students to appreciate and evaluate positions that others express. While students may not be engaging with the same students throughout this course, they will be expected to offer comments, questions, and replies to the discussion question whenever possible. The faculty role in the discussion forum is that of an observer and facilitator.

Coursework Hours

Based on the Carnegie Unit standard, a unit of graduate credit measures academic credit based on the number of hours the student is engaged in learning. This includes all time spent on the course: reading the textbook, watching videos, listening to audio lessons, researching topics, writing papers, creating projects, developing lesson plans, posting to discussion boards, etc. Coursework offered for FPU Continuing Education graduate credit adheres to 45 hours per semester unit for the 900-level courses. Therefore, a student will spend approximately 135 hours on a typical 3-unit course.

Services for Students with Disabilities

Students with disabilities are eligible for reasonable accommodations in their academic work in all classes. In order to receive assistance, the student with a disability must provide the Academic Support Center with documentation, which describes the specific disability. The documentation must be from a qualified professional in the area of the disability (i.e. psychologist, physician or educational diagnostician). Once documentation is on file, arrangements for reasonable accommodations can be made.
