ABOUT THE COURSE:

This course is packed with ideas and tips on how to support people in their tobacco recovery journey. There are eight, 15-20 - minute modules with both audio and visuals. The course addresses the stigma surrounding tobacco use and why tobacco recovery is so important. You will learn how to meet people where they are, avoid confrontation, listen actively, provide up-to-date information, and connect people with free and effective resources.

COURSE COST: \$150/PERSON*

*Scholarships are available to those who work with clients in the state of Kansas
