

NYBG

Materials List- (FDN330) Designing with Winter's Palette - ONLINE

Welcome to NYBG's floral design program!

Before the first day of the class, you will need to purchase the items listed below. If you already have a particular item, no need to buy it again. You're welcome to source the items from any online or local source, but I've also provided some example links from Amazon for most items.

Your floral material will be mailed directly to you, so please be sure we have your current address on file.

- One pair floral clippers (like [these](#))
- A vessel, roughly 6-7" x 6" cylinder wide, can be glass or plastic, and you're welcome to use something you already have. 2 appropriate vessel options for this class are included here (taken from [Jamali Garden](#)):
 - <https://www.jamaligarden.com/6in-birch-bark-finish-glass-vase.html>
 - <https://www.jamaligarden.com/7in-ceramic-round-vase.html>
- Floral mesh/chicken wire (like [this](#)). You'll really only need enough to cover your vase, so if you have leftovers from another class or find smaller "sheets" of it, that should suffice.)
OR
3-4 small, pliable branches (like birch or willow) to build a support within your vessel
- If you opt for chicken wire, you'll need wire snips to cut it with (like [these](#)).
- ¼" clear floral tape (like [this](#))
