

DEM BONES

Learn Human Bone Identification
Is it Human?

- 3 Day Workshop
- Designed For Crime Scene Investigators, Detectives, Medical Examiners, Death Investigators, Students & Forensic Anthropologists

September 22-24, 2021 (24 Credit Hours)
USF Forensic Anthropology Lab, SOC125: \$345

Register: www.forensics.usf.edu

Contact: Liotta Noche-Dowdy (liottan@mail.usf.edu)

The Florida Institute for Forensic Anthropology & Applied Sciences (IFAAS) at USF is hosting a 24-hour training for medical examiners, death investigators, detectives, crime scene personnel, and prosecutors, as well as other forensic specialists who work in the area of violent crime investigations.

This is a hands-on lab course and a crash course in human osteology.

We will spend an afternoon at the USF FORT - Facility for Outdoor Research & Training to learn how to identify and locate scattered human remains. Participants will also learn the basic bone identification, time since death estimation, taphonomic changes to bone due to the outdoor Florida environment and the latest methods in forensic anthropology for human identification.
