This course is demonstration only, wherein the instructor will walk you through the process of creating your holiday topiary. Below is a list of materials to be used during the demonstration. You do not need the materials for the class itself, as you are not expected to follow along with the demonstration; this is simply for those of you who wish to make your own topiary after watching the demonstration.

- Assorted fresh cut Evergreens and Boxwood.
- 1 brick of Oasis floral foam. (A second brick is recommended, in case of cutting error)
- Standard terra cotta pot (5” opening)
- Poly Foil or a water proof liner for the pot
- Assorted dried botanicals for decorating the tree - hydrangea, flowers, small cones, pots, grasses, rosemary, etc.
- Assorted lengths of green, wired floral picks (2.5”, 4”, and 6”)
- Covered surface to work on
- Hot glue gun and glue
- Clippers
- 24” ruler or two 12” rulers taped together to make a ridged straight edge
- knife to cut the floral foam
