

# Purdue University Fort Wayne Continuing Studies

## PERSONAL SAFETY AND HEALTH ON CAMPUS

### **Face Masks**

With no discernible improvement in COVID-19 numbers across the area and nationwide, Purdue Fort Wayne has extended its face mask requirement for all students, staff, faculty, and visitors—regardless of COVID-19 vaccination status. **Face masks are required for all persons when indoors on campus.**

### **Hand Sanitizer**

Hand sanitizer stations, sanitizing wipes, and other disinfecting supplies will be located in all classrooms and throughout campus buildings.

### **Hand washing**

The university strongly encourages frequent hand washing by all members of the campus community. While the CDC notes that touching a surface or object that has the virus on it is not the main way the virus spreads, good hand hygiene, including not touching your eyes, nose, or mouth with unwashed hands, is an essential protective measure that each person should follow.
