

# Child Care Training Programs

## 2022-2023 Calendar

Pinellas Technical College's Child Care training programs prepare students to be highly effective early childhood professionals. Each of our programs provide students with a fundamental understanding of the ages and stages of child development, how to create meaningful learning environments, foster relationships with families, support the social emotional development of children and program management. Students who earn a CCAC are qualified for higher pay, promotion, and 9 credit hours towards an Associate of Science degree in Early Childhood Education or an Associate of Arts degree at St. Petersburg College.
