

**Enrole Home**

Viewed only by your internal staff. The database stores all data accumulated from Enrole and all portals.

**Shopping Cart**

Refers to the student portal where your customers create a profile, view their history, and self-register online.

**Course**

Enrole is course-centric and holds the title, description, and category. Courses have multiple sessions over time.

**Promotion**

A group of sessions during a time period; term, session, quarter, catalog, brochure or flyer.

**Session**

An offering of a course; sessions include schedule, price, location, promotion, instructor, and LMS integrations

**Sub-Session**

An optional item such as breakout sessions, a product, book, parking pass, tickets, etc

**Person**

A permanent record with biographical information and order history; related to a "company".

**Company**

A group of people belonging to a company or family. If an individual person, it will auto-create a self named company.

**Order**

A session registration with a unique Order ID; a purchase transaction can have one or more orders.
