“Top 10 Leadership Mistakes that Make Employees Run”

Presented by: **Stacy Stack** *Hosted by:* **Express Employment Professionals**

If you want to inspire, hire and retain the best and the brightest you need to be aware of how to manage, motivate and collaborate with a new generation of workers. What does today's top talent expect in an organization? In you as a leader? Top-talented employees are highly attracted to companies and leaders that encourage growth and improvement. If a leader does not providing the tools, training, and the mentorship needed to reach career goals, employees will look elsewhere to obtain them. Nearly three-quarters of employees are either actively searching for or are open to new opportunities. Without a focus on employee engagement and development, you could lose your most productive and innovative team members to your competitors. Come and hear Stacy Stack, Vice President of Training and Recruiting for Express Employment Professionals, share best practices in engaging top performers and key strategies to become an employer of choice in your community.

PROFESSIONAL BIOGRAPHY

As a professional trainer, Stacy Stack motivates her audience through expertise and laughter. Stacy directs the development and implementation of employee training for 26 Express offices in Oregon, SW Washington and Arizona and trains over 1,500 Express Franchisees, contributors, and client company managers and leaders on an annual basis. She has been with Express for over 27 years and holds the designation of Certified Staffing Professional through the American Staffing Association. Resourced as an expert in analyzing staffing practices and identifying performance improvement strategies, Stacy also regularly instructs workshops for client companies to enhance results achieved in the workplace.
